☐ Emergency Response ☐ Disease Registry ☐ Subst-Spec Resch ☐ Other  
☒ Health Consultation ☐ Exposr Registry ☐ Health Education

Narrative Summary: THIS CONSULTATION IS BASED ON OLD DATA - NO NEW DATA SUPPLIED:

It would not pose a human health risk if the ball-fields grass is cut and the field is used for playing ball. It would not pose a health risk for the woman that ate and/or is eating dandelions from near or on-site - because, the levels of PAH and other contaminants does not pose a health risk at this time.

Action Required/Recommendations/Info Provided:  
 None

Signature: Jerome Cater, Ph.D. Date: 05/17/91

file

*NOTE: On 5/24/91, later AM Lisa Voyce called Jerome Cater & he said the Health Consultation of 5/17/91 (FAX) and the ATSDR, dated 2/21/91, Memorandum (Health Consultation) are the same. The 5/24/91 FAXED version only states (or implies per J. Cater) that those ballplaying activities are O.K. on an occasional basis & not "every day out".*

17 MAY 91  
@ 1630 hrs.
